

Get the most from your pharmacy benefit

Have a prescription to fill? Wondering if you should switch to a generic or use our home delivery service? Here are some quick tips and programs you need to know about.

How to fill your prescription

Whether you have a new prescription or need to refill an existing one, our network of more than 65,000 participating pharmacies has you covered—across the country and around your corner.

Show your member ID card to your pharmacist so they can file your claim with us online and tell you how much you owe.

Programs to stretch your pharmacy dollar

Our programs are designed to put valuable medication and health support into your hands, while also saving you money.

Covered-drug list

When it comes to choosing medications, it's important to know how the list of covered drugs—or formulary—works.

The covered-drug list divides medications into multiple tiers, each with its own cost share. Before we add a medication to the list, our team of doctors and pharmacists carefully evaluate how safe and effective it is while assessing whether it will improve health.

To see if your medication is covered and how much it will cost, visit regence.com/pharmacy, sign in or select your type of coverage, and click on **Find a Drug**.

Generics

Generic and brand-name medications have the same strength, quality and purity. But, generics can cost up to 80% less. So, ask your doctor if there is a generic drug that will work for you.

Home delivery

You can get some medications—like the ones you take for a chronic condition—mailed to you at the location of your choice. That means fewer trips to the pharmacy, and it can even save you a copay or lower your out-of-pocket costs if you have coinsurance.

90-day fills

You can pick up 90-day supplies of most long-term medications at one of our Extended Supply Network (ESN) retail pharmacies or have our Home Delivery Program ship it to the location of your choice.

Visit regence.com/pharmacy, select your type of coverage or simply sign in, and click on **Find a Pharmacy** to locate an ESN retail pharmacy or register for home delivery.

Clinical programs

Our pharmacists work behind the scenes to help you get the medications you need when you need them. We also look out for safety concerns, such as potential drug interactions or duplicate prescriptions, that could affect you.

Specialty Pharmacy

We know that living with a complex health condition can be stressful and sometimes confusing. Our specialty pharmacy services are here to support you with the care and medications you need, every step of the way. In some cases, your plan may require that you use our Specialty Pharmacy.

If you're on a non-HSA plan and are prescribed certain specialty drugs, you may have the opportunity to reduce

your out-of-pocket costs by enrolling in the FlexAccess program, which helps you identify manufacturer copay assistance coupon programs to make your medication(s) more affordable.

To assist you with the complexities of your condition and its treatment, our Specialty Pharmacy services will help you coordinate refills, monitor side effects and give you 24-hour access to clinical specialists. You'll even get injectable supplies for free—and everything can be delivered to your home or location of your choice.

Blood Glucose Meter Program

You can pick up a free LifeScan OneTouch glucometer at your pharmacy by providing a voucher at time of dispensing. To get a voucher, call us at the number on the back of your member ID card or sign into your [regence.com](https://www.regence.com) account.

Understanding pre-authorization

To ensure you're getting an effective drug at an affordable price, we review prescriptions for some medications before we cover them. Drugs on the pre-authorization list include many for which equal or more effective and lower-cost options exist.

If your drug needs pre-authorization, you'll want to do one of two things:

Talk with your doctor to see if there's an alternative treatment that does not require pre-authorization.

OR

Have your doctor or pharmacist request pre-authorization for your medication. You may need to get that authorization before you can get your prescription filled.

Stay connected
